

Christmas Auto Suggestions

The finest Christmas present is one that can be used every day in the year—one that will be enjoyed by every member of the family—one that is not only ornamental but that is intensely useful—and that will last for years. A dependable, high grade automobile is the answer to the question. The car to buy for the family is the car that not only gives the most comfort and usefulness but the car that has the power to go; the car that has the appearance; and the car that has the reputation and the backing of tried and proven manufacturers. When you buy a car from this company you buy service; you buy comfort; you buy a standard make of car; and you solve the question of what is the car to buy. Read the suggestions contained in this advertisement and then call at our headquarters for a demonstration and further information.

Hupmobile

More than 70,000 Hupmobile owners will testify as to the performance and durability of this wonderful car. An Alliance man several years ago purchased a high grade medium priced car—it was a Hupmobile. A few weeks ago he purchased a new car—it was a Hupmobile. He had no desire to change for he had received performance and knew that he was getting his money's worth.

The Hupmobile is known the country over as "The Comfort Car." The dominating feature of this car is comfort—in the widest and fullest, as well as the narrowest and most specific, meaning of the word.

In performance it does all that you could wish. The Hupmobile in high gear and with a low throttle will approximate a man's walking gait and do it easily and maintain it indefinitely. From this crawl it will dart to high speed without jerking or choking. "Pick-up" under all conditions is remarkably rapid.

Durability has been the watchword of the Hupmobile from the beginning. Hupmobile standards call for a great deal more strength in every part than that part will ever need. Study Hupmobile specifications to learn why this is the most durable car manufactured today. The past records of the car have been wonderful.

On the point of economy the Hupmobile scores high. It is economical because it offers the highest degree of performance, unusual comfort, and good looks for a price one would expect to pay for only one of those qualities. It is economical because throughout the entire car everything—mechanical parts, top, finish, upholstery and equipment—has been built for long life under hard service. It is economical because of the Hupmobile engineers' successful handling of the problem of carburetion which makes fuel consumption low, even with the poorer grades of commercial gasoline.

It is economical because the comparatively light weight of car not only makes for additional fuel economy, but for larger tire mileage as well.

We are pleased to refer you to Hupmobile owners in this territory. We will be pleased to give you a demonstration at any time.

Denby Truck

The proper truck for all uses in western Nebraska—the truck that makes good at all times. We are the agents for this territory and can furnish them for all purposes in the following sizes:

ONE TON TRUCK—Combines the sturdiness and long-life of the heavy-duty truck with the speed and low operating cost necessary in light hauling.

TWO TON TRUCK—A medium size truck with an extra strength in every part and a thorough construction, that makes it ideal for a wide range of work.

THREE TON TRUCK—Like all Denby trucks it has the power, flexibility and high road clearance for the hardest going and the economy and low power losses that give minimum hauling cost.

FIVE TON TRUCK—A truck for the heaviest duty, possessing power, ease of operation and the ability to negotiate any road or grade, that sets a new standard for heavy duty trucks.

Chandler

These are great days. All the world is glad. The heavy load has been lifted from millions of brave but sad American hearts. America rejoices, with its Allies, in the defeat of the monstrous enemy and in the termination of terrible warfare.

And now America, while caring for its millions of men in the service and rendering its assistance in the restoration of suffering nations, will turn quickly and enthusiastically to normal pursuits. Industry and labor will rapidly get their forces back into peace channels. The automobile industry has splendidly played its part in assisting to equip the United States and its Allies in their problems of defense and resistance which have led to victory.

For the cold winter weather which we will experience during which you will wish to make every minute count, let us suggest that you consider the Chandler model, as are all Chandler models, is attractive, primarily because of its very usefulness. For its capacity to serve you thoroughly and comfortably, 365 days and nights, throughout four seasons of the year. It is at your command always.

The Chandler Sedan is not just an enclosed car—it is convertible. It is an open car when you want it open and a closed car when you want it closed. It is a dependable car, too. It is strong and compactly built. It stands the gaff of rough city streets or the rough travel of western Nebraska roads equally well.

The Chandler Six, now in its sixth year without radical changes but with frequent refinement, famous for its marvelous motor and the sturdy strength of the whole chassis, offers you men and women and your families just what you want in the car that serves you. Power, life, quiet flexibility, dependability, economy of operation. And at a fair price, involving not a bit of wastefulness, not a suggestion of extravagance. Choose your Chandler now, at Christmas time. Six splendid body types to choose from, all splendidly built and finished and all comfortable.
